CDSS - Arising To Meet Tomorrow's Challenges

Shri. Sardar Jagmohan Singh Ahluwalia Ji

CDSS was founded in 1967 by Sardar Jagmohan Singh Ahluwalia Ji, who is one of India's pioneers to have envisioned the role of private security services in generating a sense of self-confidence through security that is owned and controlled by the secured entity.

Shri Gurcharan Singh Ji joined him, moved along with him since 1974, and gained adequate working experience and knowledge in the field of private security. In the next two decades, he earned the trust of the clients through dedicated service delivery standards rarely seen in this profession.

To provide structured processes and focused services, CDSS was formally incorporated in 2005. It was indeed a historic moment for the company in 2007, when CDSS became the first company to be granted a license under the stringent Private Security Agencies Regulation Act 2005 by the Commissioner of Police Navi Mumbai.

Since its inception, CDSS has been part and parcel of some of the most challenging times that the nation has faced, during which terrorisms has come to stay as our biggest challenge today. This tumultuous period has indeed been transformational for CDSS to evolve and emerge as a truly reliable provider of comprehensive security solutions to global standards for businesses, institutions, and individuals across geographies.

With our recognized highest standards of professionalism, training, quality control, rich experience, a dedicated workforce, seamlessly integrated latest technology, and vast infrastructure, CDSS residents are committed to providing the safest and most cost-effective solutions to their security needs.

Security....The Key to Prerequisite For Your Growth

Shri. Gurcharan Singh Chauhan Ji

With its unbelievable resilience, as India emerges as one of the fastest-growing economies in the world, inclusive of its unique demographics, security and cleanliness are the two most perceivable and visible factors needed to reinforce its unique image as the world's most attractive investment destination for businesses to make in India. For the engines of our spectacular growth to function uninterruptedly with high productivity, it is imperative to have an environment where the mind is without fear and in an environment that is not just clean and hygienic but also meets the aspirations of an emerging India's quest for work-place eco-systems of global standards.

While state resources provide the basic framework, the crucial last-mile gap needs to be bridged most reliably by private resources. It is here that we at CDSS take pride and step into making your world truly secure and fear-free—in a Mera Bharat, Surakshit Bharat.

CDSS - Team

Shri. Gurcharan Singh Chauhan, Designated partner CDSS Group

The overall visionary objectives and directions are given by Shri Gurcharan Singh Chauhan, CDSS Group, who has been one of the most distinguished and well-known names in the Indian security industry for over three decades.

Shri Rajnath Singh, Honorable Defence Minister of India conferring the IISSM recognition to CDSS

OUR VISION ,OUR MISSION AND OUR GOAL

Our Vision

To be the leading provider of safety and security services, setting the benchmark for excellence in safeguarding individuals, properties and assets.

Our Mission

Our mission is to ensure the utmost safety and security of our clients by delivering comprehensive, tailored solutions that mitigate risks and protect against potential threats. With unwavering commitment to professionalism, integrity and continuous improvement, we strive to exceed expectations and provide peace of mind to our valued clients.

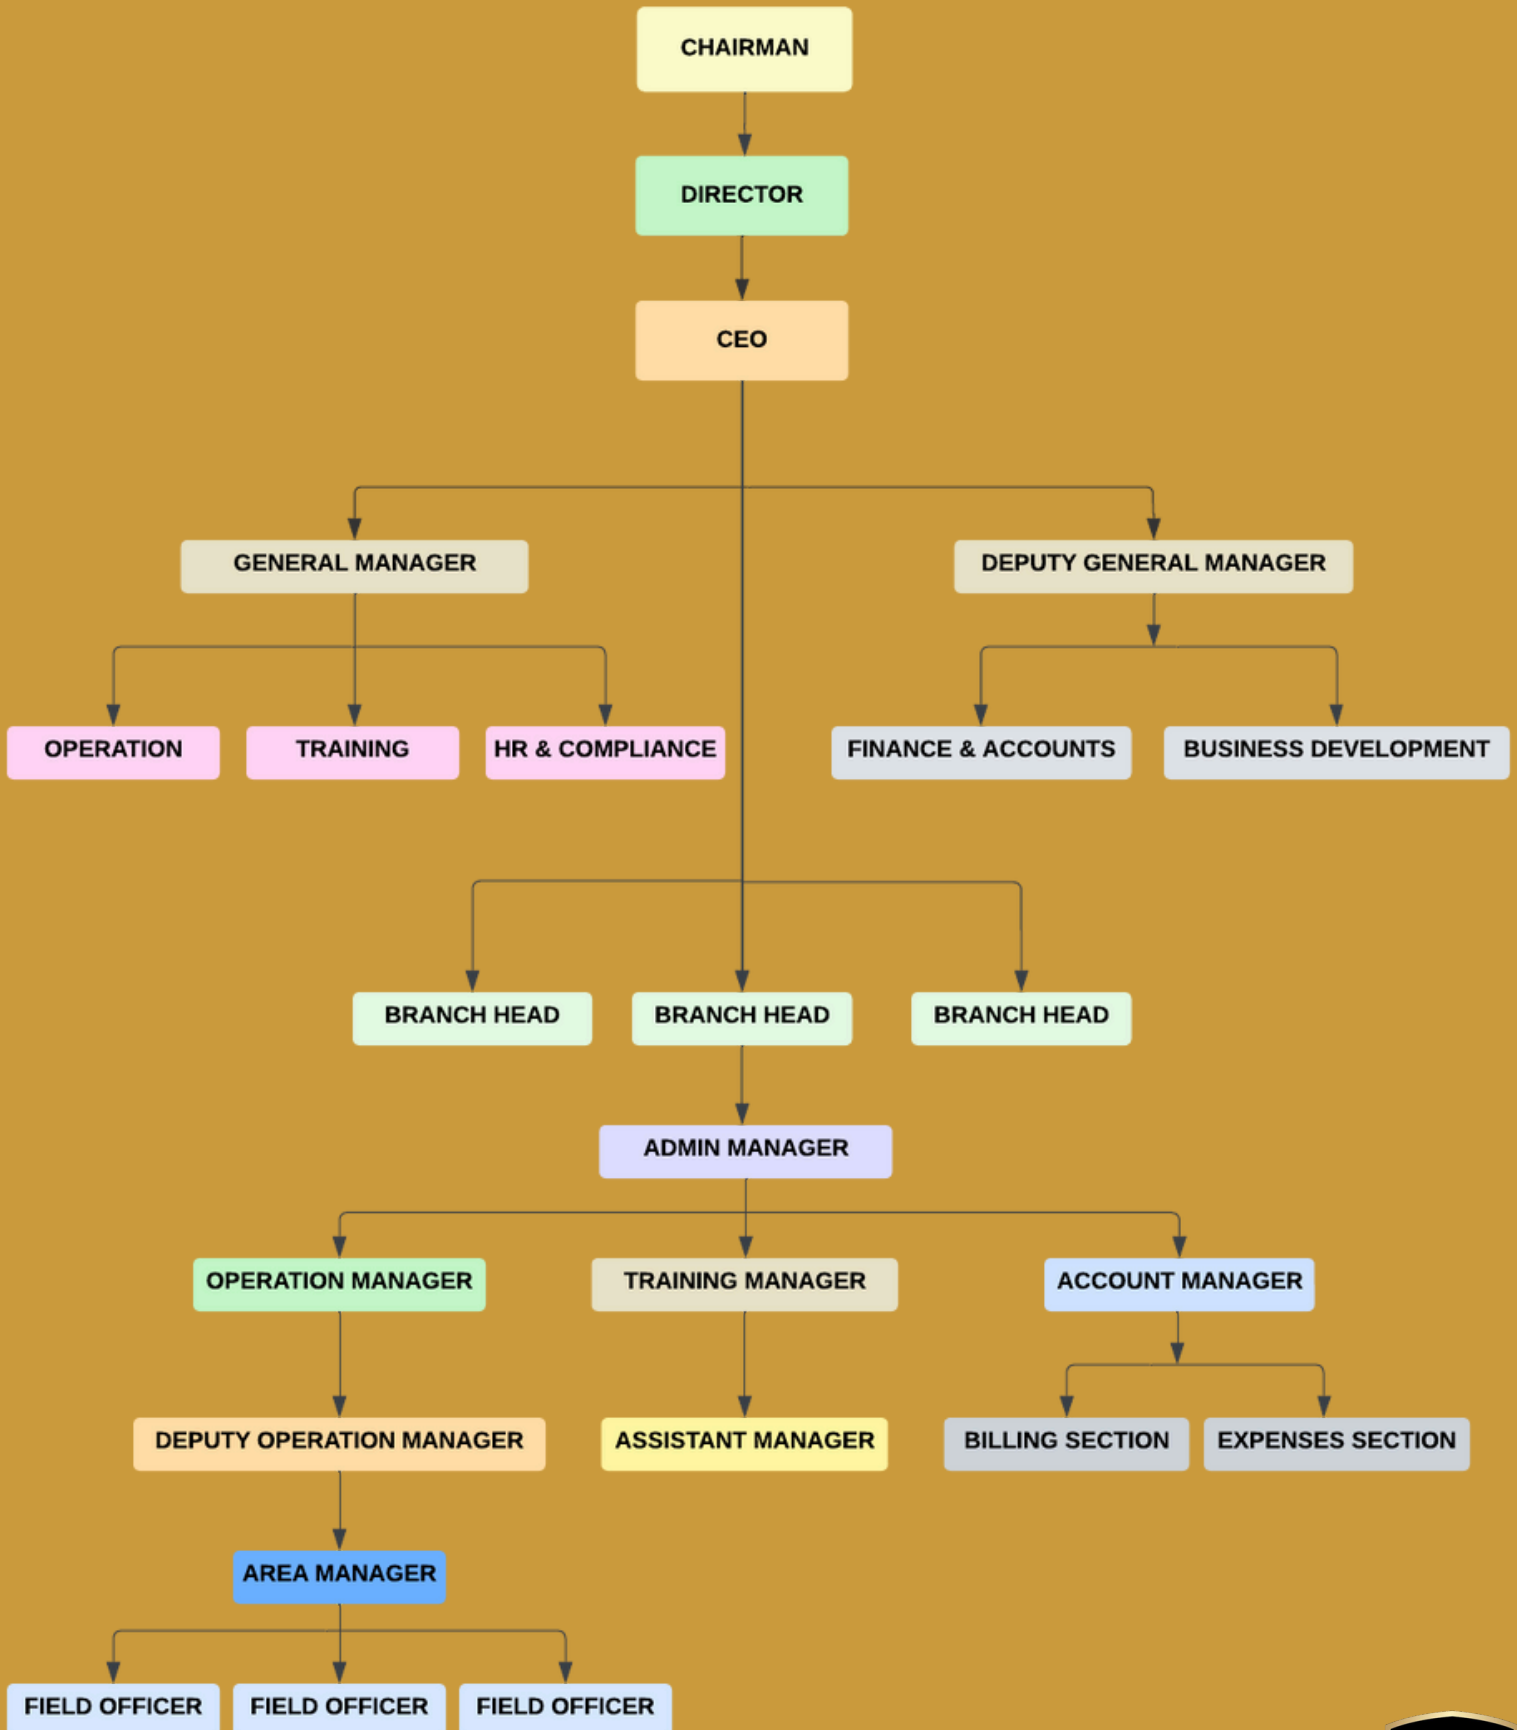

Our Goal

Our goal is to be the leading security agency in India and the most preferred and cost-effective provider of security solutions.

CDSS ORGANIZATION CHART

EXCELLENCE THROUGH TRAINING

Training is the bedrock of skill sets that enable our workforce to deliver productivity in support of our clients and partners' goals. Towards this end, CD has set a shining example by fully aligning its training with the National Occupational Standards (NOS) prescribed for the private security sector and ratified by the Security Sector Skill Development Council.

All organizations today realize that human resources are critical for their success, and it is necessary to retain the best human capital available. Although many guardians may spend their entire careers without ever facing a large-scale emergency, the threat of its occurrence requires compliance with the laid-down training standards. We, therefore, emphasize that all personnel recruited by us undergo pre-assigned formal training as laid down by the PSARA Act.

Accurate and achievable objectives are the key to successful training. We ensure that the subjects covered provide security guards with a sound basis to deal with their job responsibilities.

Our security guards are well attuned to the changes and developments within the industry and the expectations and obligations that are assigned to the client. While imparting training, we also ensure that they learn to anticipate customer needs, listen to their requirements, and, with a timely response, endeavor to exceed their expectations.

We have an affiliation with Spaarta Security Guards Training Centre at Laxmi Public School, Sukapur, Panvel-Matheran Road, Near Anand Nagar, Taluka Panvel, Raigad Dist., 410206.

We recruit security staff through sources such as existing employee's reference, advertisement, placement centers, etc. The security staff so selected has to undergo vigorous training capsules at our In-house Training Centre. We give them refresher training as and when required. We provide necessary facilities to our employees within the framework of various Acts and Rules established by both – Central Government and State Government.

THE CDSS PRICING ADVANTAGE: RENDERING VALUE

As the saying goes, no price is too high for security.

We believe that security must be rightly priced and not cheaply priced. When security is cheap, you are paying for the threat, not its prevention. Our precise site-surveys, investments in human resources, training, infrastructure, communication networks, technology, coordinated monitoring and supervision, and our geographical spread—gives us the unique competitive advantage to deliver cost-effective services of superior value.
